Start of FZ —
Middle of FZ —
End of FZ —

(3/5): replace (F)ibration by (G)rinding?
Spell “Grinding Zone” in full?
(same same other figure on github).

(2/5) Insert units [m/s]
(same same other figure on github)

(1/5) Flip sign to obtain more intuitive
graph showing increasing velocity with
radial distance.

(5/5) Insert grid for readability
(same same other figures on github)

(4/5) Is the term “position” intuitive here?
Include small figure to clarify that horizontal coordinate (x) in
this figure crosses gap from rotor ($x=0$) to stator ($x = 0.001$ m)?

Position in the gap

(2/5) Insert units [m]
